Interim Report for Switzerland

Registered Office:
2-4 rue Eugène Ruppert, L-2453 Luxembourg

No subscription can be accepted on the basis of financial reports alone. Subscriptions, in order to be valid, must be made on the basis of the current Prospectus supplemented by a copy of the latest available Audited Annual Report and a copy of the latest Unaudited Interim Report, if later than such Audited Annual Report.

Copies of the Prospectus, Audited Annual Report and Unaudited Interim Report may be obtained at the Registered Office of the Company (Invesco Funds), 2-4 rue Eugène Ruppert, L-2453 Luxembourg, as well as from the offices of the Invesco Management S.A. in Luxembourg. Notices of all General Meetings will be published to the extent required by law, in the Mémorial, Recueil des Sociétés et Associations ("Mémorial") and will be sent to holders of registered Shares at their address in the Register of Shareholders by post at least 8 days prior to meetings. In the event of any discrepancy between translations from English text into foreign languages, please note that the English text will prevail.

Equalisation is calculated for tax reporting purposes and is not disclosed in the Audited Annual or Interim Report.

2. Summary of Significant Accounting Policies

(a) The accompanying financial statements have been prepared in accordance with the format prescribed by Luxembourg regulations. Combined figures appearing in the Statement of Net Assets are for statistical purposes only and should not be used by investors with holdings in one or more sub-funds.

(b) Valuation of investments

Investments, including financial derivative instruments, are valued on the basis of the latest dealing price or the latest available midmarket quotation (the midpoint between the latest quoted bid and offer prices) of the securities on the relevant securities market on which the investments of the Fund are traded, quoted or dealt as at the Valuation Point on that day. Where investments of a sub-fund are both listed on a stock exchange and dealt by market makers outside the stock exchange on which the investments are listed, then the SICAV will determine the principal market for the investments in question and they are valued at the latest available price in that market. Securities which are not quoted or dealt in any stock exchange but which are dealt in on any other regulated market are valued in a manner as near as possible to that described above. If no price quotation is available for any of the securities held by a sub-fund or if the value as determined pursuant to the points above is not representative of the fair market value of the relevant securities, the value of such securities is based on the reasonably foreseeable sales price determined prudently and in good faith. Short-term money-market instruments are valued based on amortised cost method. Commercial papers and certificates of deposit may be valued at nominal values plus any accrued interest or on an amortised cost basis, which approximates their fair market value. The financial statements of sub-funds liquidated after closing are prepared on a non-going concern basis.

The financial statements have been prepared on the basis of the last Net Asset Values ("NAVs") determined in the accounting period. In accordance with the Prospectus, NAVs were calculated by reference to the latest available prices at 1.00 p.m. (Luxembourg time) on 31 August 2025 for all sub-funds of the Fund.

(c) Impact on values

By way of information, if the Fund had calculated the NAVs solely with a view to publication, the market prices used to value the investment portfolio would have been the closing prices on 31 August 2025 for the entire investment portfolio, including the American and European equities.
However, these NAVs would not have been significantly different from those shown in these audited financial statements except for the following sub-funds:

Invesco Sustainable Pan European Systematic Equity Fund; an increase in the Net Asset Value of approximately 0.58% would have been observed.
Invesco Japanese Equity Advantage Fund; a decrease in the Net Asset Value of approximately 0.57% would have been observed.
Invesco Nippon Small/Mid Cap Equity Fund; an decrease in the Net Asset Value of approximately 0.51% would have been observed.
Invesco Commodity Allocation Fund; an increase in the Net Asset Value of approximately 1.24% would have been observed.
Invesco Balanced-Risk Allocation Fund; an increase in the Net Asset Value of approximately 0.62% would have been observed.
Invesco Balanced-Risk Allocation 12% Fund; an increase in the Net Asset Value of approximately 0.92% would have been observed.
Invesco Balanced-Risk Select Fund; an increase in the Net Asset Value of approximately 0.76% would have been observed.

(d) Cost of sales of investments

Any surplus or deficit on sales of investments is determined on the basis of average cost.

(e) Income from investments

Dividend income is accounted for on an ex-dividend basis. Income arising on fixed interest securities and deposit interest is accrued on a day-to-day basis. Amortisation/Accretion of Premium/Discount is disclosed under the Income section on the Statement of Operations and Changes in Net Assets (disclosed at year end only). Amortisation is the process of decreasing the book value of a bond purchased at a premium until the book value is equal to the par value at the time of maturity. As the book value is reduced, it is accounted for as a reduction in net investment income. Accretion is the process of writing up the book value of a bond purchased at a discount. As the book value is increased, it is accounted for as an increase in net investment income. The Amortisation /Accretion approach provides a consistent accounting treatment over the life of bond-like assets of the capital gain or loss associated with holding these assets.

(f) Foreign exchange

Transactions in currencies other than the designated currency for each sub-fund are translated at the rates of exchange ruling at the time of the transactions. The market value of the investments and other assets and liabilities in currencies other than the designated currency for each sub-fund are translated at the rates of exchange ruling at the period end.

The main exchange rates used as at 31 August 2025:

Currency	USD 1.00	Currency	USD 1.00	Currency	USD 1.00

2. Summary of Significant Accounting Policies (continued)

(g) Expenses allocation

Where the Fund incurs an expense which relates to a particular sub-fund, such expense is allocated to the relevant sub-fund. In cases where an expense cannot be considered as being attributable to a particular sub-fund, such expense is allocated between sub-funds on the basis of their respective NAV.

(h) Preliminary expenses

The preliminary expenses will, if any, be borne by the Management Company.

(i) Forward foreign exchange contracts

The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contracted rate and the rate to close out the contract and is disclosed in the Statement of Net Assets (see note 8 for details). Realised gains or losses include net results on contracts which have been settled or offset on other contracts and are recorded in the Statement of Operations and Changes in Net Assets (disclosed at year end only). The unrealized appreciation/depreciation is disclosed in the Statement of Net Assets under “Unrealised gain/(loss) on forward foreign exchange contracts" (see note 8 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under “Net realised gain/(loss) on investments, derivatives and foreign currencies and other” and “Net change in unrealised appreciation/depreciation on forward foreign exchange contracts” (disclosed at year end only).

Non-Deliverable Forwards ("NDF") are short-term forward contracts on thinly traded or non-convertible foreign currencies. Those contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from NDF are included in the Statement of Net Assets. The NDF are normally quoted and settled in USD. The NDF are disclosed together with other forward foreign exchange contracts in note 8.

(j) Futures contracts

A futures contract is a legal agreement to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future. Futures contracts are initially recognised at cost and subsequently are re-measured at market value. Market values are obtained from quoted market prices and exchange rates. All futures contracts are carried in assets when amounts are receivable by the Fund and in liabilities when amounts are payable by the Fund. Changes in market values of futures contracts are included in the Statement of Net Assets (see note 9 for details). The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under “Unrealised gain/(loss) on futures contracts” (see note 9 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under “Net realised gain/(loss) on investments, derivatives and foreign currencies/purchased at market value and other” and “Net change in unrealised appreciation/depreciation on futures contracts” (disclosed at year end only).

(k) Credit default swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. The credit default swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Net Assets (see note 10 for details). The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under “Unrealised gain/(loss) on credit default swaps” (see note 10 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under “Net realised gain/(loss) on investments, derivatives and foreign currencies and other” and “Net change in unrealised appreciation/depreciation on credit default swaps” (disclosed at year end only).

(l) Interest rate swaps

An interest rate swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The interest rate swaps are marked-to-market daily based upon quotations from market makers and recorded in the Statement of Net Assets (see note 11 for details). The unrealized appreciation/depreciation is disclosed in the Statement of Net Assets under “Unrealised gain/(loss) on interest rate swaps” (see note 11 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under “Net realised gain/(loss) on investments, derivatives and foreign currencies and other” and “Net change in unrealised appreciation /depreciation on interest rate swaps” (disclosed at year end only).

(m) Commodity swaps

A commodity swap is similar to a Fixed-Floating interest rate swap. The difference is that in an interest rate swap the floating leg is based on standard interest rates such as SOFR, SONIA, €STR etc., but in a commodity swap the floating leg is based on the price of underlying commodity index. No commodities are exchanged during the trade. Commodity swaps are marked-to-market using valuation sources/methods and the fair value is recorded on the Statement of Net Assets under “Unrealised gain/(loss) on commodity swaps” (see note 12 for details). The realised gains/(losses) and change in unrealised gains and losses are shown in the “Net realised gain/(loss) on investments, derivatives and foreign currencies and other” and the “Net change in unrealised appreciation/depreciation on commodity swaps” respectively in the Statement of Operations and Changes in Net Assets (disclosed at year end only).

2. Summary of Significant Accounting Policies (continued)

(n) Total return swaps

A total return swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Fund enters into unfunded swap agreements on behalf of the particular sub-fund. Total return swaps are marked-to-market using valuation sources/methods and fair value is recorded in the Statement of Net Assets. Total return swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the total return swaps. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on total return swaps" (see note 13 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on total return swaps" (disclosed at year end only).

(o) Options

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price ("strike price") to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

Purchased options - Premiums paid by the Fund for purchased options are included in the Statement of Net Assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation. If the option is allowed to expire the Fund will lose the entire premium it paid and record a realised loss for the premium amount. Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

Written options - Premiums received by the Fund for written options are included in the Statement of Net Assets. The amount of the liability is adjusted daily to reflect the current market value of the written option and the change in market value is recorded as unrealised appreciation or depreciation. Premiums received from written options that expire are treated as realised gains. The Fund records a realised gain or loss on written options based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer, the premium received by the Fund is added to the proceeds from the sale of the underlying security to the option buyer and compared to the cost of the closing transaction to determine whether there has been a realised gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost basis of the purchased security. Written uncovered call options subject the Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the strike price. Written put options subject the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium.

Outstanding options traded on a regulated market are valued based on the closing price or the last available market price of the instruments. OTC options are marked-to-market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty.

The market value is disclosed in the Statement of Net Assets under "Options written at market value" (see note 14 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on options/swaptions" (disclosed at year end only).

(p) Swaptions

A swaption (swap option) is the option to enter into an interest rate swap or some other type of swap. In exchange for an option premium, the buyer gains the right but not the obligation to enter into a specified swap agreement with the issuer on a specified future date. There are two different kinds of swaptions: a payer swaption and a receiver swaption. In a payer swaption, the purchaser has the right, but not the obligation, to enter into a swap contract where he becomes the fixed-rate payer and the floating-rate receiver. A receiver swaption is the opposite; the purchaser has the option to enter into a swap contract where he will receive the fixed rate and pay the floating rate. The market value is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on options/swaptions" (see note 14 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on options/swaptions" (disclosed at year end only).

(q) Equity Linked Notes

At the period end, the Invesco Global Equity Income Advantage Fund held a number of Equity Linked Notes. A principal amount is paid to a broker at the market price of an underlying equity at an agreed date in return for a fixed coupon payment or payments. At maturity the Fund will receive the principal plus (up to an agreed cap level per the agreement) or minus any movements in the value of the underlying equity.

(r) To Be Announced securities

To Be Announced ("TBA") securities are related to mortgage backed securities issued by US government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. The specific mortgage pools are announced and allocated just before the delivery date. Certain Funds may enter into TBA purchase commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalised. The Funds hold and maintain until settlement date, cash or high grade debt obligations in an amount sufficient to meet the purchase price, or the Funds may enter into offsetting contracts for the forward sale of other securities they own. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities in themselves and involve a risk of loss if the value of the security to be purchased declines prior to settlement date, which is in addition to the risk of decline in the value of the Funds' other assets. Unsettled TBA purchase commitments are valued at the current market value of the underlying securities.

2. Summary of Significant Accounting Policies (continued)

(s) Margin Accounts

Margin accounts represent the variation margin held at brokers for futures contracts, credit default swaps, interest rate swaps, commodity swaps and total return swaps. Margin is only applicable to centrally cleared positions.

(t) Cross investments

Cross sub-fund investment holdings were not eliminated from the combined figures. At 31 August 2025, the total cross sub-fund investment holdings are as mentioned below:

Invesco Developing Initiatives Bond Fund amounted to USD 7,282,683 into Invesco Asian Flexible Bond Fund.
Invesco Global High Yield Fund amounted to USD 6,868,822 into Invesco Multi-Sector Credit Fund.
Invesco Asia Asset Allocation Fund amounted to USD 13,991,322 into Invesco Asian Equity Fund.

Taking into account the above mentioned cross sub-fund investments the total combined net assets at period-end without cross sub-fund investments would have amounted to USD 41,786,715,668.

(u) Capital gains tax on investment

Indian Capital Gains Tax:

The Finance Bill 2024 (No. 2) has received Presidential assent on 16 August 2024 and became the Finance Act 2024.

The following tax changes are effective as of 23 July 2024 for sale transactions:

An increase in the long-term capital gains tax (CGT) rate applicable on sale of listed shares, equity oriented mutual funds, real estate investment trusts (REITs) and infrastructure investment trusts (INVITs) from 10% to 12.5% (plus applicable surcharge and cess). An increase in the short-term CGT rate applicable sale of listed shares, equity oriented mutual funds, real estate investment trusts (REITs) and infrastructure investment trusts (INVITs) from 15% to 20% (plus applicable surcharge and cess).

Further to these changes, the Finance Bill 2025 has received Presidential assent and became Finance Act 2025.

The following tax changes are effective as of 1 April 2025 for sale transactions:

An increase in the long-term capital gains tax (CGT) rate applicable on sale of securities (other than listed shares, units of equity oriented mutual funds and units of business trust), including bonds, from 10% to 12.5% (plus surcharge and cess).

Thailand Capital Gains Tax:

On 31 March 2022 Thailand signed and deposited its instrument of ratification of the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting ("MLI"). The MLI entered into force from 1 July 2022, however for withholding taxes the MLI applies on or after 1 January 2023. Measures to prevent treaty abuse are supported by a new provision, the Principal Purpose Test ("PPT"), to deny tax benefits if one of the principal purposes is to obtain the tax benefits under the treaty. Therefore, Thailand should apply the PPT to cover tax treaties going forward. Due to the MLI, the Thai Revenue Department ("TRD") has contacted certain custodians/brokers to ask about how this position might work going forward and, therefore, the foreign investors are concerned as to whether the current position (rely on the registered owner) will be sustained after PPT applies to Thailand's treaties. The TRD currently has no clear position on whether, as a result of the MLI entering into force, it will change its interpretation to apply the concept of the beneficial owner of income, as opposed to merely the recipient of income (registered owner), on Thai CGT for foreign investors.

(v) Other debtors/Other creditors

The Other debtors line on the Statement of Net Assets can include prepaid sundry fees, accrued income, prepayments, spot contracts and contingent assets.

The Other creditors line on the Statement of Net Assets can include management fees payable, accrued expenses, accrued capital gains tax payable, accrued sundry fees and spot contracts.

3. Management Fees

The Directors of the Fund (the "Directors") are responsible for the investment policy, management and administration of the Fund. The Directors delegate the day-to-day investment management of the securities portfolio of the Fund to Invesco Management S.A. (the "Management Company").

In following the investment policy, the Management Company may delegate the investment management services, as appropriate, to Invesco Advisers Inc. in the United States, Invesco Asset Management Deutschland GmbH in Germany, Invesco Asset Management Limited in the United Kingdom, Invesco Canada Ltd, Invesco Hong Kong Limited, Invesco Asset Management (Japan) Limited and Invesco Asset Management Singapore Ltd. Each such investment manager may then in turn have sub-delegated the investment management services to any of the aforementioned entities.

For its services the Management Company is paid by the Fund a percentage of the NAV of each share class of each sub-fund as set out in the table below:

Sub-fund	Class A %	Class A1 %	Class B % (includes Distribution fee[5])	Class C %	Class E %	Class E1 %	Class FA %	Class P1/PI1 %	Class R % (includes Distribution fee[6])	Class S %	Class T1/TI1 %	Class Z %

There are no annual management fees charged for "I" Shares.

The management fees are calculated daily based on the Net Asset Value of each sub-fund on each business day and paid monthly. The fees of the Investment Manager are paid out of the Management Company's remuneration.

At its discretion the Management Company has agreed to the capping of operational expenses and total expenses, where a fund exceeds the cap an amount will be waived, this cost will be borne by the Management Company. Waived amounts are reflected in the Total Waived Expense line in the Statement of Operations and Changes in Net Assets (disclosed at year end only). Refer to note 4 for details of capped funds.

[3] Out of this Service Agent Fee, the Management Company discharges the fees of the Administration Agent, the Domiciliary & Corporate Agent and the Registrar & Transfer Agent as well as fees of service providers. Each of these fees shall be calculated on each Business Day on the NAV of the sub-funds (at a rate which shall be agreed from time to time with the Management Company) and paid monthly.

[4] Class T1 is 0.06% and Class TI1 is 0.05%.

The Depositary will be paid a fee calculated on a monthly basis at a rate of up to a maximum of 0.0075% per annum of the NAV of each sub-fund on the last Business Day of each calendar month (or at such higher rate as the Custodian and the SICAV may at any time agree), plus VAT (if any) and will be paid monthly. In addition, the Depositary will charge each sub-fund safekeeping and servicing fees at varying rates, depending on the country in which the assets of a sub-fund are held and currently ranging from 0.001% to 0.45% of the NAV of the assets invested in such country, plus VAT (if any), together with charges at normal commercial rates in respect of investment transactions, as agreed with the SICAV from time to time. Sub-custodian fees are paid out of these safekeeping and servicing fees.

5. Tax Status

Luxembourg

The Fund is registered under Luxembourg law as a collective investment undertaking. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Fund. It is, however, subject to an annual "Taxe d'abonnement" calculated at an annual rate of 0.05% of the NAV. "I", "PI", "S" and "TI" share classes are subject to a reduced annual rate of 0.01% of the NAV, such tax being payable quarterly on the basis of the NAV of the sub-funds at the end of the relevant quarter.

Belgium

The Fund is registered with the Belgium Financial Services and Markets Authority in accordance with Article 154 of the Law of 3 August 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax ("Belgian subscription tax") of 0.0925% on the NAV of shares distributed in Belgium via Belgian intermediaries as at 31 December of the previous year, with effect from 1 January 2014. As a precautionary measure, the Fund has filed claims with the Belgian tax authority and the Brussels Court of First Instance for the tax to be refunded.

The Court of Cassation ruled against the plaintiff on 25 March 2022. The Court of Cassation (French Speaking Chamber) considers that the Brussels Court of Appeal wrongly qualified the Belgian subscription tax as a capital tax, and did not rule on whether the tax falls within the scope of the double taxation convention between Belgium and Luxembourg (the "Treaty"). The case is referred back to the Court of Appeal of Liège.

Another decision of the Court of Cassation (Dutch speaking Chamber) of 21 April 2022 does not dispute that the Belgian subscription tax is a capital tax, but considers that the Belgian subscription tax does not fall within the scope of the double taxation convention between Belgium and Luxembourg Treaty. The case is referred back to the Court of Appeal of Ghent.

The Ghent Court of Appeal issued its decision on 5 November 2024, which was aligned with decisions rendered by the Brussels Court of Appeal on 25 April 2023, holding that the Belgian tax qualifies as a net wealth tax within the meaning of the Treaty and that consequently, Luxembourg SICAVs may invoke the provisions of the treaty to avoid the imposition of the Belgian subscription tax. However the day after, on 6 November 2024, the Court of Appeal of Liège ruled in the opposite direction aligning itself with the Court of Cassation (French speaking Chamber) that the Belgian subscription tax does not qualify as a net wealth tax within the meaning of the Treaty. Consequently, Luxembourg SICAVs may not invoke the provisions of the Treaty to avoid the imposition of the Belgian subscription tax.

At this stage, considering the uncertainty created by the divergence in jurisprudence between the Belgian Supreme Court and Court of Appeal in Belgium, it is not possible to prejudge the final outcome of the dispute or any reimbursement which may result in favour of the Fund.

Withholding Tax

Further to a number of rulings of the European Court of Justice regarding taxation withheld on overseas dividends, the Management Company has taken steps to make claims with certain European Tax Authorities for repayment of taxation suffered on foreign dividend income. Due to the uncertainty regarding the likely success of the claims, it is not possible to estimate the potential amount of overseas withholding tax that may be received and these are recorded on cash basis.

6. Reimbursement of Withholding tax claim

The sub-fund received no cash payments corresponding to the reimbursements of formerly overpaid withholding tax on dividends during the period ended 31 August 2025.

7. Dividends

In accordance with the distribution policy of the Fund, income is distributed by way of a dividend payment, only to holders of Distribution Shares.

The Fund at its absolute discretion has the power to issue certain classes of Shares that offer a fixed distribution. The following table lists the sub-funds and these classes of shares available at 31 August 2025:

15. Swing Pricing Policy

Securities are valued as outlined in note 2(b). However, in order to mitigate the effects of dilution, the Fund has implemented a policy of "Swing Pricing" as from 18 December 2007. The Swing Pricing mechanism may be applied against all sub-funds of the Invesco Funds.

In the best interest of Shareholders, the Directors may allow for the NAV to be adjusted, using bid or ask market quotation rather than mid, depending on the net share activity arising from subscriptions, redemptions or switching in a sub-fund for a given business day.

The sub-funds operate partial swing only. That is, the sub-funds will not swing to either a bid or ask price basis daily, but only when a pre-determined level of shareholder activity is exceeded. In such circumstances the NAV of the relevant sub-fund may be adjusted by an amount not exceeding 2.00%. High redemption level triggers a swing to a bid price basis, whereas high subscription level triggers a swing to ask price basis. The Directors have the ability to place a sub-fund on constant swing depending on the recent trends in a sub-fund.

The reconciliation on 31 August 2025 of MID to BID/ASK pricing is as follows:

[2]Effective 8 August 2025, the share classes of Invesco Developing Markets Equity Fund (except "A1" Share class) merged into Invesco Emerging Markets Equity Fund. Effective 8 August 2025, Invesco Developing Markets Equity Fund (i.e. "A1" Share class) was put into liquidation.

16. Changes in Investments

A list, specifying for each investment the total purchases and sales which occurred during the period under review, may be obtained, upon request and free of charge, at the Registered Office and the Hong Kong Representative Office of the Fund.

17. Securities Lending

The SICAV, on behalf of each Sub-Fund (if specified in Appendix A of the Prospectus) and in furtherance of efficient portfolio management, may enter into securities lending for the purposes of efficient portfolio management in accordance with the provisions of the UCITS Regulations. The securities lending agent appointed pursuant to the Securities Lending Authorisation Deed is The Bank of New York Mellon SA/NV.

At 31 August 2025, there was securities lending on the sub-funds listed in the tables below. The tables below show the securities lending income earned. This securities lending income earned is net of the lending agent fee. Further details on the securities lending are disclosed in the Securities Financing Transactions Appendix.

As per the Securities Lending Authorisation Deed, The Bank of New York Mellon SA/NV is authorised and directed to invest and re-invest all or substantially all of the collateral received in any approved investment. All approved investments shall be for the account and risk of the lender. To the extent any loss arising out of approved investments results in a deficiency in the amount of collateral available to return to a borrower, the lender agrees to pay The Bank of New York Mellon SA/NV on demand cash an amount equal to such deficiency. As at 31 August 2025, there was no collateral re-invested.

18. Soft Commissions & Related Party Transactions

Certain subsidiaries of Invesco Ltd (the "Group") consistent with obtaining the best net result, including best execution, may enter into agreements with counterparties whereby those counterparties may make payments for investment services provided to the Group.

Investment services are used by the Group to improve or add to the services provided to its clients. Although each and every service may not be used to service each and every account managed by the Group, the Group considers that those investment services received are, in the aggregate, of significant assistance in fulfilling its investment responsibilities and are of demonstrable benefit to all clients. Only services that assist in the provision of investment services to the Group's clients will be paid for by counterparties.

Allowable investment services include services that provide assistance to the Group in its investment performance. Those services include, but are not necessarily limited to, furnishing analysis, research and advisory services including economic factors and trends, portfolio valuation and analysis, performance measurement, market prices services and the use of specialised computer software and hardware or other information facilities.

The Group will ensure adherence to its investment decision making responsibilities to its clients in accordance with the laws of the countries that have jurisdiction over its clients or business. This may vary in application with respect to the appropriateness of those investment services provided.

The Group selects counterparties to execute transactions on the basis that transactions will only be executed provided the placing of orders will not operate against the best interest of the Group's clients and that the multiple is at a level which is generally accepted market practice. The Group will endeavour to obtain best execution on all transactions for all clients.

The Group will endeavour to maintain the highest possible regulatory standards worldwide.

The Administrator, Depositary, Registrar and Transfer Agent, Corporate and Paying Agent, Domiciliary Agent and Investment Managers are considered as connected parties to the sub-funds by Invesco Management S.A. We have performed the necessary enquiries to identify potential transactions with connected parties to ensure they have been negotiated at arm's length and in the best interests of the shareholders. Any such transactions would have been entered into in the ordinary course of business and on normal conditions.

Independent Directors will be paid €85,000 for the financial year ending 28 February 2026. These will be paid by the Fund. The Directors who are employees of the Invesco Group are not entitled to receive Director's fees.

As at 31 August 2025, the Fund has investments in other Invesco Funds. Please see the Statement of Investments for details by sub-fund.

For the period end 31 August 2025, the Fund did not pay broker fees/commissions on bond transactions. In accordance with bonds market practice, a "bid-offer" spread is applied on the transaction prices. According to this principle, the sale price applied by the broker is not the same as the purchase price, the difference corresponding to the remuneration of the broker.

21. Sustainable Finance Disclosure Regulation (SFDR)

Information on sub-funds promoting environmental and/or social characteristics or having sustainable investments as their objective are available under the (unaudited) Sustainable Finance Disclosure Regulation section and its relevant annexes where applicable. This section is included in the annual report for the year ended 28 February only.

22. Sub-Funds in Liquidation

For the sub-funds which have been put into liquidation, the assets held on these sub-funds cannot be traded due to events beyond the control of the Investment Manager and have been fair valued. 23. Credit Suisse AT1 Bond

Following the write down of the Credit Suisse AT1s on 19 March 2023, the Fund and Management Company boards continue to review the Fund's position in respect of the claim that was subsequently filed on behalf of the Fund to preserve its legal right to challenge the write down and recover losses. Subsequently, a private market for the sale and purchase of Credit Suisse AT1 claims was established to provide an interim mechanism for the partial realisation of value for the legacy Credit Suisse AT1 positions. Although this market for Credit Suisse AT1 claims is illiquid, certain brokers are providing daily pricing and trades have been executed periodically on an OTC basis under Loan Market Association style sub-participation documentation in line with that pricing.

Consequently, the boards have determined that the prudent approach is to treat the Credit Suisse AT1 claims as a contingent asset within the financial statements at a valuation that is derived from market data and observable transactions, mirroring the fair market value as of 31 August 2025. There can be no guarantee that the Fund will be able to realise any value in respect of these claims in the future and the board reserves the ability to deal with the claims as it deems appropriate in the future as information changes.
