OBJECTIVES

Objectives and investment policy

The objective of The Sub-Fund is to seek an attractive Total Return through a high level of current income and long-term appreciation. The Sub-Fund aims to seek out The best investment opportunities across The business cycle within The global fixed income universes.

Extra financial considerations (Environmental, Social and Governance ("ESG")) are fully integrated in the investment process of the Sub-Fund. Therefore, the Sub-Fund will focus on companies whose social and environmental factors and methods of governance have a sustainable impact on financial performance. All of the three ESG criteria are applied according to the following main criteria:

- Governance: Board structure, independence and diversity; business ethics, bribery and corruption.
- Social: Human resources management and customer/supplier relations.
- Environment: Energy efficiency, waste management, carbon emissions reduction.

An Extra-financial analysis process is used to assign an ESG score based on an internal analysis and/or on the data provided by an extra-financial rating agency in order to define the eligible investment universe.

Further information regarding the way the Fund's sustainable investment objective is achieved is available in the Fund's prospectus and accessible via www.mirabaud-am.com. The Fund is subject to Mirabaud Sustainable and Responsible investment policy.

Derivatives For hedging and for any other purposes, the Sub-Fund may use financial derivative instruments.

Benchmark The Sub-Fund is actively managed. It is not managed in reference to a benchmark.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment	5 years CHF 10,000		
	If you exit after 1 year	If you exit after 5 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	CHF 8,500	CHF 8,100
	Average return each year	-15.0%	-4.1%
Unfavourable scenario	What you might get back after costs	CHF 8,670	CHF 8,890
	Average return each year	-13.3%	-2.3%
Moderate scenario	What you might get back after costs	CHF 10,070	CHF 9,800
	Average return each year	0.7%	-0.4%
Favourable scenario	What you might get back after costs	CHF 11,090	CHF 11,000
	Average return each year	10.9%	1.9%

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

You may not face a financial loss due to the default of FundPartner Solutions (Europe) S.A.. The assets of the Fund are held in safekeeping by its depositary, Bank Pictet & Cie (Europe) AG, succursale de Luxembourg. In the event of the insolvency of FundPartner Solutions (Europe) S.A., the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary).

Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10,000 is invested

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. For more information, please see prospectus .

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Investment of CHF 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	CHF 84	CHF 415
Annual cost impact (*)	0.8%	0.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.4% before costs and -0.4% after costs.
