Copies of the Interim Report including unaudited Financial Statements for the period ended 30 September 2025 may be obtained from the Registered Office of M&G (Lux) Investment Funds 1 at 16, boulevard Royal, L-2449 Luxembourg, The Grand Duchy of Luxembourg.

No subscription can be made solely on the basis of financial reports. Subscriptions are only valid if made on the basis of the current Prospectus accompanied by the Key Investor Information Document(s) and the most recently published Annual Report including audited Financial Statements, or the most recent unaudited semi-annual report, if published thereafter.

Please remember that past performance is not a guide to future performance and it might not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amount originally invested. Because of this, investors are not certain to make a profit on their investments and may lose money.

Management and administration

The Board of Directors of M&G (Lux) Investment Funds 1 (the 'Board' or its 'Directors') presents its Interim Report and unaudited Financial Statements for the six months ended 30 September 2025.

Please note that an explanation of key investment terminology is available on our website at **mandg.com/private-investor/glossary**

A printed copy of the glossary is available upon request by calling customer services and administration as shown within the 'Investor information' section of this report.

Fund information

M&G (Lux) Investment Funds 1 (the 'Fund') is an Open-Ended Investment Company incorporated under the laws of The Grand Duchy of Luxembourg as a *Société d'Investissement à Capital Variable* (SICAV) in accordance with the provision of Part 1 of the Law dated 17 December 2010 on undertakings for Collective Investment, as amended (the 'UCI Law').

The Fund is authorised and regulated by the *Commission de Surveillance du Secteur Financier* (CSSF) under the laws of the The Grand Duchy of Luxembourg. The Fund was incorporated on 29 November 2016 and is an Undertaking for Collective Investment in Transferable Securities (UCITS) scheme under Part 1 of the UCI Law.

The Fund is an umbrella fund designed to offer investors access to a variety of investment strategies through a range of separate sub-funds. Each sub-fund represents a separate portfolio of assets.

The Fund's principal activity is to carry on business as a SICAV. The Fund is structured as an umbrella fund, and different sub-funds may be established by the Board from time to time with the approval of the CSSF.

Under Luxembourg law, the Fund is itself a legal entity, and the assets and liabilities of each sub-fund are segregated from one another and invested in accordance with the investment objectives and investment policies applicable to each sub-fund.

Shareholders are not liable for the debts of the respective sub-fund. A Shareholder is not liable to make any further payment to the respective sub-fund after payment has been made in full for the purchase of shares.

Each sub-fund may offer more than one class of shares. Each share class may have different features with respect to its criteria for subscription (including eligibility requirements), redemption, minimum holding, fee structure, currency, hedging policy and distribution policy (further information on share classes is fully described in the Fund's Prospectus).

Directors' Report

Directors' responsibilities

The Directors are responsible for the overall management and control of the Fund in accordance with the Articles. The Directors are further responsible for the implementation of each sub-fund's investment objective and policies, as well as for oversight of the administration and operations of each sub-fund.

The Directors shall have the broadest powers to act in any circumstances on behalf of the Fund, subject to the powers reserved by law to the Shareholders.

The following persons have been appointed as Directors of the Fund:

Philip Jelfs, Director.

Laurence Mumford, Director.

Susanne van Dootingh, Independent Director.

Yves Wagner, Independent Director.

Nadya Wells, Independent Director.

The Directors may appoint one or more committees, authorised delegates or agents to act on their behalf.

Delegation of functions

Management Company

The Fund has appointed M&G Luxembourg S.A., pursuant to the Management Agreement, to serve as its management company within the meaning of the UCI Law.

The Management Company performs certain functions, subject to the overall supervision of the Directors, for the provision of investment management services, administrative services and marketing services to the Fund.

The Management Company acts as the management company of the Fund under the freedom to provide services organised by the UCITS Directive. In accordance with the relevant provisions of the UCI Law, the Management Company will be required to comply with the CSSF Rules (being the rules of the Management Company's 'home member state' for the purposes of the UCI Law) in relation to the organisation of the Management Company, including its delegation arrangements, risk management procedures, prudential rules and supervision, applicable prudential rules regarding the Management Company's management of UCITS authorised under the UCITS Directive and the Management Company's reporting requirements. The Management Company shall comply with the UCI Law as regards the constitution and functioning of the Fund.

The Fund has appointed the Management Company as its corporate and domiciliary agent. The Management Company will be responsible for the domiciliation of the Fund and will perform, inter alia, the functions as foreseen in the Luxembourg law of 31 May 1999 on the domiciliation of companies, as amended from time to time, and, in particular, allow the Fund to establish its registered office at the registered office of the Management Company, and provide facilities necessary for the meetings of the Fund's Directors, officers and/or of the Shareholders of the Fund.

Distributor

M&G Luxembourg S.A. acts as the distributor of Shares.

Investment manager

The Management Company has appointed M&G Investment Management Limited as investment manager to manage and invest the assets of the sub-funds pursuant to their respective investment objectives and policies.

The investment manager was appointed pursuant to the Investment Management Agreement. Under the Investment Management Agreement, the investment manager has full discretion, subject to the overall review and control of the Management Company and the Directors, to purchase and sell securities and otherwise to manage the assets of the Fund on a discretionary basis. The investment manager is also entitled to delegate investment management under the terms set out in the Investment Management Agreement.

Directors' Report

Registrar and transfer agent

The Management Company has appointed CACEIS Bank, Luxembourg Branch as registrar and transfer agent of the Fund on behalf of the Board of Directors.

Under the Registrar and Transfer Agency Agreement, the registrar and transfer agent is responsible for processing the issue, redemption and transfer of shares, as well as for the keeping of the register of Shareholders, subject to the overall review and control of the Management Company and the Directors.

Administrator

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the administrator of the Fund on behalf of the Board of Directors. The administrator will carry out certain administrative duties related to the administration of the Fund, including the calculation of the Net Asset Value of the shares and the provision of accounting services to the Fund, subject to the overall review and control of the Management Company and the Directors.

Hedging services

The Management Company has appointed State Street Europe Limited to undertake certain currency hedging functions in respect of Currency Hedged Share Classes.

Depositary

The Management Company in conjunction with the Board of Directors has appointed State Street Bank International GmbH, Luxembourg Branch as the Depositary.

The Depositary shall perform all of the duties and obligations of a depositary under the UCITS Directive and the Luxembourg implementing laws and regulations with respect to each sub-fund.

The Depositary has been entrusted with the following main functions:

- Ensuring that the sale, issue, repurchase, redemption and cancellation of shares are carried out in accordance with applicable law and the Articles.
- Ensuring that the value of the shares is calculated in accordance with applicable law and the Articles.
- Carrying out the instructions of the Management Company or the Fund (as the case may be), unless such instructions conflict with applicable law or the Articles.
- Ensuring that, in transactions involving the assets of the Fund, any consideration is remitted to the Fund within the usual time limits.
- Ensuring that the income of the Fund is applied in accordance with applicable law and the Articles.
- Monitoring and oversight of the Fund's cash and cashflows in accordance with the UCITS Directive and the Luxembourg implementing laws and regulations.
- Safe-keeping of the Fund's assets, including the safe-keeping of financial instruments that can be held in custody and ownership verification and record-keeping in relation to other assets.

Fair Valuation and liquidity

As noted in the important information section, financial markets have been impacted by the invasion of Ukraine. Within the portfolios a small number of Russian securities are held. These securities were fair valued by the Board of Directors and marked as such in the statement of investments. The holding of these securities has not impacted the liquidity of the sub-funds and has not raised any going concern issues for the Fund.

There have not been any significant difficulties in valuing the portfolio during and since the period end.

Directors' Report

Directors' statement

This report has been prepared in accordance with the requirements of the UCITS Directive 2009/65/EC of the European Parliament and Council of 13 July 2009.

Market review

For the period from 1 April 2025 to 30 September 2025

The period was marked by significant market volatility, driven largely by geopolitical developments and monetary policy shifts.

At the beginning of the period, global markets were shaken by US President Trump's 'Liberation Day' announcement on 2 April of sweeping tariffs on imports, which initially triggered a sharp sell-off in financial markets. The subsequent 90-day suspension of these tariffs led to a recovery in global bond markets.

In September, the Federal Reserve cut interest rates for the first time in 2025, as concerns over a slowing labour market mounted. The tariff saga, while still ongoing, appeared to have had a somewhat muted impact on markets as the US reached trade deals with various economies. The US economy grew faster than expected, fuelled by strong consumer spending.

Global equity markets experienced a volatile six-month period from April to September 2025 but rose in US dollar and euro terms. April saw sharp declines followed by a rebound, driven by tariff headlines and recession fears, with defensive sectors like consumer staples and utilities outperforming. The US lagged early on but later led gains, especially in technology, as the so-called 'Magnificent Seven' technology stocks drove performance.

Japan and Europe initially outperformed but lost momentum. Asia Pacific ex Japan and emerging markets showed resilience, particularly South Korea and China. The rally intensified from June onwards, culminating in record highs for major US indices.

Despite fears that emerging markets would be hardest hit by US tariffs, emerging markets equities performing strongly over the period.

Sector performance was shaped by macroeconomic shifts and investor sentiment. Technology and communication services consistently led gains, while defensive sectors like consumer staples and healthcare lagged. Materials and energy fluctuated with commodity prices, and industrials showed resilience but underperformed in later months. Sector rotation reflected changing risk appetite and rate expectations.

Despite considerable turmoil, the period was positive for global government bonds, although there was strong divergence between developed markets in the third quarter. US Treasuries rose 2.3% over the six months, with the 10-year bond yield finishing the third quarter at 4.2%. UK government bonds rose 1.3% over the period while German bunds were up only 0.9%. The 10-year gilt finished the third quarter at 4.7% while 10-year bunds were yielding 2.7% at quarter-end.

US corporate bonds rose by 4.5% and European corporate bonds by 2.6%. Riskier high yield debt rose 5.6% overall, with US high yield bonds leading the way. Emerging market bonds delivered healthy returns too. Government bonds were ahead of corporate debt, with local currency-denominated sovereigns the best performers.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Long-term performance by share class as at 30 September 2025

[a] Sub-fund performance before the launch of the sub-fund on 16 March 2018 is that of the relevant Merged Share Class of the M&G European Inflation Linked Corporate Bond Fund, which includes UK taxes but excludes entry and exit charges. The M&G European Inflation Linked Corporate Bond Fund is a UK authorised sub-fund which launched on 16 September 2010 and its non-Sterling share classes merged into M&G (Lux) European Inflation Linked Corporate Bond Fund on 16 March 2018.

The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Exposure represents the sub-fund's exposure to that counterparty.

The accompanying notes to the financial statements are an integral part of these financial statements.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

[a] Sub-fund performance before the launch of the sub-fund on 9 November 2018 is that of the relevant Merged Share Class of the M&G Pan European Select Fund, which includes UK taxes but excludes entry and exit charges. The M&G Pan European Select Fund is a UK authorised sub-fund which launched on 29 September 1989 and its non-Sterling share classes merged into M&G (Lux) Pan European Select Fund on 9 November 2018.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Financial highlights

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

In order to ensure that European investors outside the UK had the opportunity to remain invested in M&G's sub-fund strategies, M&G proposed the mergers of non-Sterling share classes in a selection of its UK sub-funds ('the Merging Funds') into equivalent sub-funds within M&G (Lux) Investment Funds 1 ('the Receiving Funds'). Following successful extraordinary resolutions at shareholder meetings on 5 October 2018, the mergers of the non-Sterling share classes of the UK OEIC's took place on various dates prior to 29 March 2019. The past performance of the merged share class has been carried over to the equivalent SICAV share classes.

The performance table below shows the original launch dates of the share classes in the UK 'Merging Funds' in the column headed 'Launch date of the merged share class'. The launch dates of the share classes in the equivalent sub-funds within M&G (Lux) Investment Funds 1 are provided in the column headed 'Launch date of the SICAV share class'. The figure shown in the column headed 'Since performance start date' is calculated from the launch date of the merged share class, where available. 'n/a' in the launch date column for the merged share class indicates that no merged share class existed prior to the launch of the SICAV share class. In this case, the 'since performance start date' is the launch date of the SICAV share class.

The following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested. For periods under a year the rate of return is calculated on an absolute basis.

[a] Fair valued.

[b] Crossholding (see note 11).

[c] As part of the sub-fund merger between the M&G (Lux) Sustainable Allocation Fund and M&G (Lux) Conservative Allocation Fund on 21 October 2022, two sanctioned Russian-listed securities were transferred into the beneficial ownership of the M&G (Lux) Sustainable Allocation Fund. As both sub-funds have been prohibited from selling these assets, they have remained in a custody account of M&G (Lux) Conservative Allocation Fund.

All securities are on an official stock exchange listing or dealt on another regulated market except where referenced.

Interest rates represent the stated coupon rate.

Maturity dates represent either the stated date on the security or the prerefunded date for those types of securities.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 September 2025

Notes to the financial statements

1 Basis of preparation

These financial statements have been prepared and presented in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation and presentation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment funds including the following significant accounting policies.

The financial statements have been prepared under a going concern assumption as deemed appropriate by the Management Company.

2 Summary of significant accounting policies

a) Base currency

The combined financial statements of the Fund are expressed in euros, at the exchange rate at 30 September 2025, the base currency of M&G (Lux) Investment Funds 1. The financial statements of each sub-fund are expressed in the sub-funds' base currency.

b) Exchange rates

Transactions in currencies other than each sub-fund's base currency are translated at the rate of exchange ruling on the date of the transaction. Assets and liabilities are translated into each sub-fund's base currency at the rate of exchange ruling at the sub-fund's valuation point on 30 September 2025 being the last business day of the accounting period:

c) Investments – recognition and valuation

All investments are initially recognised at the transaction price net of direct transaction costs (excluding accrued interest).

Realised gains and losses on sales of investments are determined on the basis of the average cost method where applicable. Investment cost is adjusted by the amortisation of premiums and accretion of discounts on a straight line basis. It includes the net amount received, excluding any interest treated as income, from derivative instruments.

Unrealised gains or losses on investments are determined by reference to the opening and closing valuation of investments and includes surpluses or deficits arising from unsettled derivative contracts.

At the end of the reporting period all investments have been valued using the prices and the portfolio holdings determined on 30 September 2025, at the last valuation point of the accounting period.

The methods of determining value for the principal classes of investment are:

- Equities and debt securities which are traded on an active market are included at the mid price (the mid point between the quoted bid and offer prices), excluding any accrued interest in respect of bonds.
- Collective investment schemes are included at either the mid of their cancellation and creation prices for dual priced funds or their single price for single priced funds.
- Other equities and debt securities which are unquoted or not actively traded on a quoted market are included at a value estimated by the administrator and under policies and procedures approved and overseen by the Board of Directors using an appropriate valuation technique, excluding any accrued interest in respect of bonds.
- Exchange traded futures and options are included at either their single price or, if separate buying and selling prices are quoted, the average of the two prices.
- Over the counter equity options, credit default swaps, interest rate swaps, asset swaps and inflation swaps are included at a value provided by S&P Global Valuations Limited, an independent credit derivative price provider. Their value excludes any accrued interest in respect of derivatives where the interest is income in nature.
- Forward currency contracts, for share class hedging and investment, are included at a value determined by reference to current forward exchange rates for contracts with similar maturity profiles.
- Cash and amounts held in current, deposit, and margin accounts and in other time-related deposits shall be valued at their nominal value.

d) Recognition of income and expenses

- Dividends and any withholding tax, including ordinary stock dividends and special dividends, from equity investments are recognised when the security is quoted ex-dividend.
- Distributions from collective investment schemes, including any equalisation, are recognised when the scheme is priced ex-distribution.

Notes to the financial statements

- Interest income from debt securities is recognised daily on an accruals basis and includes the amortisation of premiums and accretion of discounts on a straight line basis.
- Income from derivatives is recognised on an accruals basis.
- Fixed deposit, money market deposit and bank interest are recognised daily on an accruals basis.
- Underwriting commission is recognised when the issue takes place.
- Fee rebates from investing in other collective investment schemes are recognised on an accruals basis.
- Expenses are recognised on an accruals basis.
- Luxembourg subscription tax (*taxe d'abonnement*) is recognised daily on an accruals basis.

e) Allocation of returns to share classes

The annual management charge, *taxe d'abonnement*, any share class hedging returns and associated share class hedging charges are directly attributable to individual share classes. All other returns are apportioned to each sub-fund's share classes pro-rata to the value of the net assets of the relevant share class on the day that the income or expenses are recognised.

The Fund operates income equalisation arrangements with a view to ensuring that the level of income accrued within a sub-fund is not affected by the issue, conversion or redemption of sub-fund shares during an accounting period.

The Directors operate a policy of 'swing pricing' where a swing price adjustment may be added to the Net Asset Value per share to determine the price at which shares may be issued or redeemed. The swing price adjustment protects existing Shareholders from the dilutive effect of direct and indirect portfolio dealing costs incurred when investments are bought or sold in response to net flows of money into or out of the sub-funds from investors buying and selling shares in the sub-funds.

f) Performance fee

In respect of certain sub-funds and certain share classes, the Management Company is entitled to receive from the net assets of each sub-fund or share class an annual performance fee which, if applicable, will be calculated and accrued each Valuation Day and payable to the investment manager annually in arrears at the end of an annual accounting period.

The performance fee is calculated based on a percentage of the increase in the Net Asset Value per share of each relevant share class above both its High Water Mark and Hurdle as described in the Prospectus (Appendix 2) for M&G (Lux) Investment Funds 1.

The rate at which the performance fee shall be applied (the 'Performance Fee Rate') for each share class and the Hurdle are set out in the 'Performance Fees' section of the relevant Fund Supplement in the Prospectus for M&G (Lux) Investment Funds 1.

3 Distribution policy

Distribution shares may pay distributions to Shareholders, whereas Accumulation shares will instead accumulate all earnings pertaining to the relevant share class for the benefit of the Accumulation Shareholders. Distribution payments are made in the relevant share class currency.

The Directors will exercise their discretion to determine whether or not to declare a distribution in respect of Distribution shares. Distributions may be paid out of investment income, capital gains or capital at the discretion of the Directors. Distributions and their frequency are disclosed in note 13 of this report.

Unless detailed below, the distribution policy for all sub-funds and distribution share classes is to distribute all investment income gross of expenses.

The following distribution share classes distribute an amount or fixed percentage of the Net Asset Value per Share. Where the amount of investment income earned is not sufficient to meet this fixed amount or fixed percentage, a fixed Distribution Share Class may be required to make a payment out of capital. The Directors will periodically review fixed Distribution Share Classes policies and reserve the right to make changes to the distribution rate in cases where maintaining it may adversely impact the respective sub-funds or the Shareholders. The details of such fixed Distribution Shares are available on the **M&G website**.

In order to conduct a controlled dividend flow to shareholders, the below sub-funds interim distributions will be at the sub-fund manager's discretion, up to the maximum of the distributable income available for the period.

4 Transaction costs

Direct portfolio transaction costs include broker execution commission and taxes and are incremental costs that are directly attributable to the transaction. Indirect portfolio transaction costs represent the difference between the buying and selling prices of the sub-fund's investments (portfolio dealing spread); some types of investment, such as fixed interest securities, have no direct transaction costs and only the portfolio dealing spread is paid. Transaction costs are incorporated as part of realised gain/(loss) in the Statement of operations and changes in net assets.

5 Operating charges

Operating charges included in the Total Expense Ratio (TER) calculation include payments made to M&G and to providers independent of M&G:

- **Investment management:** Charge paid to M&G for investment management of the sub-fund (also known as Annual Management Charge).
- **Performance fee:** Performance fee paid (payable) to M&G based on performance of the applicable share class.
- **Administration:** Charge paid to M&G for administration services in addition to investment management – any surplus from this charge will be retained by M&G.
  Please note that this does not apply to M&G (Lux) Fixed Maturity Bond Fund 1, M&G (Lux) Fixed Maturity Bond Fund 4, M&G (Lux) Fixed Maturity Bond Fund 5 and M&G (Lux) Sustainable Macro Flexible Credit Fund, which carry a Single Charge.
- **Share class hedging:** Charge paid to M&G for currency hedging services to minimise exchange rate risk for the share class.

Notes to the financial statements

- **Oversight and other independent services:** Charges paid to providers independent of M&G for services which include depositary, custody and audit. From 1 October 2020, audit fees and custody transaction charges are paid by the Management Company for any sub-fund where the NAV has been lower than €200m ('Threshold'). The Management Company reviews the Net Asset Value of the sub-funds at the end of each quarter. If at the end of two consecutive quarters a sub-fund's Net Asset Value is:
  - below the Threshold: the audit fees and custody transaction charges will be borne by the Management Company and excluded from the calculation of the Net Asset Value of the sub-fund.
  - above the Threshold: the audit fees and custody transaction charges will be included in the calculation of the Net Asset.
- **Taxation in Luxembourg:** Under current legislation, investors that are not resident in Luxembourg are not subject to capital gains or income tax, unless they have a permanent establishment in Luxembourg to which the share capital of the Fund is allocated. Retail share classes of the Fund are subject to a tax (*taxe d'abonnement*) of 0.05% per annum and institutional share classes of 0.01%.
- **Ongoing charges from underlying funds:** Ongoing charges on holdings in underlying funds that are not rebated. Where a sub-fund invests in collective investment schemes that are also managed by the Management Company (or an associate), the Management Company will rebate the Annual Management Charge and Administration Fee of the underlying collective investment scheme.

The operating charges paid by each share class of the sub-funds are shown in the Total Expense Ratio (TER) tables. Operating charges do not include portfolio transaction costs or any entry and exit charges also known as initial and redemption charges. The charging structures of the share classes may differ, and therefore the operating charges may differ. For each sub-fund there may be a difference between ongoing charges and TER figures, please see the relevant Key Investor Information Document for a more reliable estimate of future charges (available from our website at **mandg.lu**).

For M&G (Lux) Episode Macro Fund, the operating charges and performance fees are paid by the applicable share class. The charges do not include portfolio transaction costs or any entry and exit charges (also known as initial and redemption charges). The charging structures of the applicable share classes may differ, and therefore the operating charges and performance fees may differ. For further details of performance fee calculations please refer to the most recent Visa Stamped Prospectus approved by the CSSF on 17 September 2025.

For M&G (Lux) Fixed Maturity Bond Fund 1, M&G (Lux) Fixed Maturity Bond Fund 4, M&G (Lux) Fixed Maturity Bond Fund 5 and M&G (Lux) Sustainable Macro Flexible Credit Fund, the Management Company takes a 'Single Charge' from each share class of the sub-fund to cover its duties, as well as operating, administration and oversight costs associated with the sub-fund. Such charge will be calculated and taken into account daily ('Single Charge'). For additional information on Single Charge, please refer to the Prospectus which is available on our website at **mandg.lu**

6 Annual management, administration and share class hedging charges

Annual management charges are set out in the table below. In addition, there is an administration charge of 0.15% per share class. A Share class hedging charge of 0.01%-0.055% will apply to hedged share classes. These charges are accrued daily based on the net asset value of each share class. Any amounts outstanding at the period end are disclosed in the Statement of net assets.

Please note that the following table lists the available share classes. Each share class further contains an accumulation and distribution option.

Administration Charge

From 1 October 2020, a discount was introduced on the administration charge based on a sub-fund's Net Asset Value (NAV), as shown in the table below. The sub-funds' administration charge is currently up to 0.15% per annum.

Sub-fund NAV	Discount	Buffer[a]	Discount removed/reduced[b]
€ 0-1.25bn	nil	n/a	n/a
€ 1.25-2.50bn	0.02%	€ 125m	€ 1.125bn
€ 2.50-3.75bn	0.04%	€ 125m	€ 2.375bn
€ 3.75-5.00bn	0.06%	€ 125m	€ 3.625bn
€ 5.00-6.25bn	0.08%	€ 125m	€ 4.875bn
€ 6.25-7.50bn	0.10%	€ 250m	€ 6.000bn
More than € 7.50bn	0.12%	€ 250m	€ 7.250bn

[a] Applied in case of reducing sub-fund NAV.
[b] When a sub-fund NAV falls below.

Please note that this change does not apply to the M&G (Lux) Fixed Maturity Bond Fund 1, M&G (Lux) Fixed Maturity Bond Fund 2, M&G (Lux) Fixed Maturity Bond Fund 4, M&G (Lux) Fixed Maturity Bond Fund 5 and M&G (Lux) Sustainable Macro Flexible Credit Fund, which carry a Single Charge.

7 Depositary, safe custody and custody transaction charges

The Depositary takes a charge from each sub-fund as payment for its duties as depositary. The Depositary's charge is based on the NAV of each sub-fund, and in normal circumstances, the fees payable to the Depositary for its provision of services shall be subject to a maximum of 1 basis point.

The Depositary also receives a fee in relation to the safe-keeping of each sub-fund's assets (safe custody charges) and a fee in relation to processing transactions (custody transaction charges). The safe custody charge is a range between 0.00005% and 0.4% of the asset values and custody transaction charges range between €5 and €100 per transaction.

The Depositary's charge is calculated and taken into account daily on the same basis as described above for the Annual Management Charge. The safe custody charges and custody transaction charges are accrued daily.

Notes to the financial statements

8 Directors' fees

The Directors are entitled to receive fees of €50,000 per director per annum, which are paid by the Management Company. Philip Jelfs and Laurence Mumford have waived their entitlement to Directors' fees. The Management Company shall also reimburse certain expenses of the Directors, in accordance with the Articles, out of the Administration Charge.

9 Taxes

Luxembourg

The Fund is, in principle, liable in Luxembourg to a subscription tax (*taxe d'abonnement*) of 0.05% per annum of its NAV, such tax being payable quarterly on the basis of the value of the aggregate net assets of the Fund at the end of the relevant calendar quarter.

This rate is reduced to 0.01% per annum for:

- Undertakings whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions.
- Undertakings whose sole object is the collective investment in deposits with credit institutions.
- Individual sub-funds of UCIs with multiple sub-funds, as well as for individual classes of securities issued within a UCI or within a sub-fund of a UCI with multiple sub-funds, provided that the securities of such sub-funds or classes are reserved to one or more institutional investors.

As from 1 January 2021, the Fund or its individual sub-funds, may benefit from reduced subscription tax rates depending on the value of the relevant sub-fund's net assets invested in economic activities that qualify as environmentally sustainable within the meaning of Article 3 of the Taxonomy Regulation (the 'Qualifying Activities'), except for the proportion of net assets of the Fund or its individual sub-funds invested in fossil gas and/or nuclear energy related activities. The reduced subscription tax rates would be of:

- 0.04% if at least 5% of the total net assets of the Fund, or of its individual sub-funds, are invested in Qualifying Activities.
- 0.03% if at least 20% of the total net assets of the Fund, or of its individual sub-funds, are invested in Qualifying Activities.
- 0.02% if at least 35% of the total net assets of the Fund, or of its individual sub-funds, are invested in Qualifying Activities.
- 0.01% if at least 50% of the total net assets of the Fund, or of its individual sub-funds, are invested in Qualifying Activities.

The subscription tax rates mentioned above would only apply to the net assets invested in Qualifying Activities.

In addition, exemptions are available from the subscription tax where:

- the value of the assets represented by units held in other UCIs, provided such units have already been subject to the subscription tax.
- UCIs reserved for Institutional Investors which are authorised as short-term money market funds in accordance with Regulation (EU) 2017/1131 and that have obtained the highest possible rating from a recognised rating agency.
- UCIs whose securities are reserved for retirement pension schemes.

Notes to the financial statements

- UCIs whose main objective is the investment in microfinance institutions.
- UCIs which securities are listed or traded and whose exclusive object is to replicate the performance of one or more indices.
- UCIs that are authorised as European long-term investment funds within the meaning of Regulation (EU) 2015/760 of the European Parliament and of the Council of 29 April 2015 on European long-term investment funds.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes (FTT) or other transaction taxes on certain assets held by the sub-funds (for example, UK stamp duty, French FTT).

Withholding tax

Dividends, capital gains and interest received by the sub-fund on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the sub-fund itself is exempt from income tax.

10 Swing pricing

Investments are bought or sold by a sub-fund when changes are made to the investment portfolio and in response to net flows of money into or out of the sub-funds from investors buying and selling shares in the sub-funds.

To protect existing investors, the Directors operate a policy of swing pricing. This policy gives the Directors the power to apply a 'swing price adjustment' to the Net Asset Value per share so that portfolio transaction costs incurred as a result of investors buying and selling shares in the sub-funds can be recovered from those investors through the price they pay or receive.

Notes to the financial statements

A swing price adjustment may be applied in the event that the daily net subscriptions or net redemptions exceed a predetermined threshold set by the Directors.

The published share price/NAV per share inclusive of the swing pricing adjustment is disclosed in the Net Asset Values and Total Expense Ratio table included within the Financial highlights section of each sub-fund. The swing price adjustment is not recognised in the Statement of net assets or the Statement of operations and changes in net assets.

Swing price adjustments received through buying and selling shares is included in the net in/outflows in the Statement of operations and changes in net assets.

Under normal market conditions, the adjustment will never be larger than 2% of what the NAV would otherwise be on any given Valuation Day. This adjustment may however be significantly higher and beyond the maximum threshold during exceptional market conditions such as periods of high volatility, reduced asset liquidity and market stress. The price adjustment applicable to a specific sub-fund is available on request from the Management Company at its registered office.
