On 1 April 2025 the Investment Manager for Schroder ISF Sustainable Asian Equity changed from Schroder Investment Management (Hong Kong) Limited to Schroder Investment Management (Singapore) Limited.

Directors' Report

The Company

Schroder International Selection Fund (the 'Company') is an open-ended investment company organised as a "société anonyme" under the laws of the Grand Duchy of Luxembourg.

The Company constitutes a single legal entity, but the assets of each Sub-Fund shall be invested for the exclusive benefit of the Shareholders of the corresponding Sub-Fund and the assets of a specific Sub-Fund are solely accountable for the liabilities, commitments and obligations of that Sub-Fund.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the 'Management Company'); Sponsoring entity GIIN: 4RIMT7.00000.SP.442.

For Sub-Funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Marketing Permissions Regime (TMPR) which allows Schroders Funds to be distributed and marketed in the UK/to UK investors.

Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the unaudited financial statements for the period ended 30 June 2025.

At the date of this report, there were 136 Sub-Funds available for investment within the Company (the 'Sub-Funds'). Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (http://www. schroders.lu).

This report covers the period from 1 January 2025 to 30 June 2025. The last day on which prices were calculated was 30 June 2025, being the last working day of the period. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. Across the Financial Statements, the names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha. On 30 June 2025, the total net assets of the Company were EUR 120,814,227,004 compared to EUR 121,718,531,662 on 31 December 2024 representing a decrease of 0.74%.

Directors' Responsibilities

The responsibility of the Board is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company and each of its Sub-Funds as at the financial year end and of the profit or loss of the Company and each of its Sub-Funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;

- make judgments and estimates that are reasonable and prudent;

- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and

- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. They have responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard, they have entrusted the assets of the Sub-Funds to J.P. Morgan SE, Luxembourg Branch (the 'Depositary') for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

Board Meetings

During the period to 30 June 2025, there were 7 board meetings held.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law, which is available for inspection at the registered office of the Company at 5, rue Höhenhof, L-1736 Senningerberg, Grand Duchy of Luxembourg.

2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ('RCSL').

3. The obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A., which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.

4. The Association of the Luxembourg Fund Industry ('ALFI') code of conduct, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors and filed with the Commission de Surveillance du Secteur Financier ('CSSF') and in the case of annual reports with the RCSL. The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors of the Company on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Sustainable Finance Disclosure Regulation

The information on the environmental and social characteristics for the Sub-Funds disclosing under article 8(1) of SFDR as required by article 50 (2) of SFDR RTS and the information on sustainable investments for the Sub-Funds disclosing under article 9(1), 9(2) and 9(3) of SFDR as required by article 58 of the SFDR RTS are available in the 31 December 2024 Annual Report in Appendix VI - Sustainable Finance Disclosure (Unaudited).

Schroder ISF Global Managed Growth	USD	6 February 2025

3. Sub-Fund Merger

There was 1 merger during the period under review:

Merger Date	Sub-Fund
14 May 2025	Schroder ISF QEP Global ESG ex Fossil Fuels merged into Schroder ISF QEP Global ESG

4. Share Class Liquidations

In addition to the 27 share classes within the above liquidated Sub-Funds and Sub-Fund merger, the following share classes were also liquidated during the period under review:

Sub-Fund and Share Class	Share Class Currency	Sub-Fund Base Currency	Liquidation Date
Schroder ISF European Special Situations			
Class IZ Acc	EUR	EUR	10 June 2025
Schroder ISF Global Climate Leaders			
Class A CO Acc	USD	USD	28 February 2025
Class C CO Acc	USD	USD	28 February 2025
Schroder ISF QEP Emerging Markets Core			
Class X Acc GBP	GBP	USD	14 January 2025
Schroder ISF QEP Global Emerging Markets			
Class C Acc GBP	GBP	USD	26 June 2025
Class IZ Acc	USD	USD	26 June 2025

5. Sub-Fund Name Changes

During the period under review 7 Sub-Funds changed name:

Date	Current name	Previous name
21 May 2025	Schroder ISF Global Alternative Energy	Schroder ISF Global Energy Transition
8 April 2025	Schroder ISF Global Consumer Trends	Schroder ISF Changing Lifestyles
8 April 2025	Schroder ISF Global Innovation	Schroder ISF Global Disruption
8 April 2025	Schroder ISF Robotics and Automation	Schroder ISF Smart Manufacturing
21 May 2025	Schroder ISF QEP Emerging Markets Core	Schroder ISF Sustainable Emerging Markets Synergy
21 May 2025	Schroder ISF QEP Emerging Markets Ex China Core	Schroder ISF Sustainable Emerging Markets Ex China Synergy
8 April 2025	Schroder ISF Dynamic Opportunities^	Schroder ISF Sustainable Future Trends

^ The Sub-Fund was restructured in conjunction with its name change to Schroder ISF Dynamic Opportunities.

Investment Manager's Report

Economic review

The six-month period was dominated by uncertainty over US trade tariffs, with fears that an escalation in trade disputes could trigger a sharp global economic downturn.

The Federal Reserve (Fed) cut its 2025 growth forecast for the US economy from 2.1% to 1.7%, while raising its inflation forecast. Accordingly, the Fed left interest rates unchanged at 4.25% to 4.5%.

US economic indicators, particularly labour market data, generally remained resilient although GDP contracted during the first quarter by 0.5%, which was largely attributable to higher imports as both businesses and consumers stockpiled goods in anticipation of price hikes stemming from trade tariffs.

President Trump unveiled a fiscal programme which was passed by the House of Representatives in June. The legislation extends tax cuts implemented in 2017, increases defence spending, and cuts spending on welfare programmes such as Medicaid.

In the eurozone, elections in Germany brought optimism that the new administration led by the Christian Democrats would pursue a pro-growth agenda. The eurozone HCOB composite purchasing managers' index recorded its strongest expansion in three months during June, with both the manufacturing and services sectors increasing.

In the UK, spending cuts in the Chancellor's Spring Statement highlighted concerns around the economic outlook. While the Office for Budget Responsibility concluded the UK fiscal outlook remained stable, it cautioned that higher defence spending and global trade uncertainty may necessitate further tax hikes in the autumn.

A key contrast came from Japan. In January, the Bank of Japan (BoJ) raised interest rates to 0.5%, the highest level since the global financial crisis in 2008, in response to higher wages and consumer price inflation.

In emerging markets, stimulus measures in China including interest rate cuts, support for the troubled property sector, and liquidity injections, helped to stabilise the economy. Advances in artificial intelligence (AI) by Chinese companies have also led investors to reevaluate China as a leader in the technology sector.

In commodity markets, escalating conflict in the Middle East caused a brief oil price surge but oversupply kept prices contained. The gold price recorded a new all-time high as central banks continued to accumulate reserves.

Global equities review

During the first quarter of 2025, concerns over trade tariffs weakened US shares while Europe outperformed as Germany announced substantial spending plans, raising optimism that the new government would pursue a pro-growth agenda. Technology stocks posted steep declines in January after Chinese firm DeepSeek released a rival, low-cost AI model causing investors to reassess earnings expectations from AI for the leading US companies, particularly the "Magnificent Seven". However, the sector later recovered.

In early April, the announcement of "Liberation Day" tariffs by President Trump sparked significant volatility in equity markets worldwide. Global shares advanced over Q2 after the temporary suspension of most tariffs until early July while trade talks took place. US shares were supported by some robust first quarter earnings reports, with the technology and communication services sectors leading the gains. Emerging market equities were just ahead of their developed market peers over Q2, assisted by the weakness of the US dollar.

Fixed income review

In fixed income, uncertainty over US trade tariffs overshadowed government bond markets during the first half of the year, with Q2 characterised by escalating geopolitical tensions. Concerns over fiscal deficits grew with central banks nearing the end of their rate-cutting cycles.

The US 10-year Treasury yield fell from 4.58% to 4.23%, as investors focused on the negative aspects of tariffs for US economic growth with the Fed signalling a further two interest rate cuts this year.

The 10-year German bond yield rose from 2.36% to 2.60% despite the European Central Bank (ECB) cutting interest rates on four occasions to 2% in June. In March, the German parliament approved plans from the new coalition government to substantially raise borrowing limits, funding long-term defence and infrastructure expenditure.

UK 10-year gilt yields fell from 4.57% to 4.49% as the Bank of England cut interest rates to 4.25% despite inflation remaining well above its 2% target.

Outlook

It is precarious to second guess the Trump administration, but if the current pause on tariffs becomes permanent then the impact on the global economy should be manageable. As such, the Schroders Economics Group forecasts global GDP growth of 2.2% for this year. However, the risks remain high due to ongoing uncertainty about US policymaking, and in particular tariff assumptions. Additionally, geopolitics remain unpredictable.

With underlying domestic demand largely unchanged, we expect US GDP growth of 1.7% in 2025, accelerating to 2.4% in 2026 as the Trump administration delivers fiscal stimulus.

We expect the impact from tariffs to China's economy will be manageable, with leading indicators pointing to some cyclical recovery as we head into 2026 supported by fiscal policy.

There has been a material change in outlook for the eurozone, and as fiscal stimulus starts to gain traction, we expect GDP growth to accelerate from 1% this year to 2% in 2026.

The Schroders Multi-Asset investment team remains positive on equities but risks are skewed in a stagflationary direction for the US as the lagged effects of tariffs start to impact the economy. The most significant speed limit on equities, however, is the extent to which bond markets can take the rising debt levels that result from higher government spending.

The accompanying notes form an integral part of these financial statements.

Notes to the Financial Statements as at 30 June 2025

The Company

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The Company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

Classes of Shares

The Share Classes available for each Sub-Fund are set out in the current prospectus, along with details of any minimum subscription, minimum additional subscription and minimum holding amounts and details of initial charges, redemptions charges and distribution charges (where applicable) for each Share Class.

Accounting Policies

Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis. Sub-Funds that have been liquidated or are intended to be liquidated after the period end are prepared on a non-going concern basis. Subsequent to the period end date, Schroder ISF Sustainable Infrastructure was liquidated. The following Sub-Funds are under review regarding their ongoing viability and, as a result, have been prepared on a non-going concern basis - Schroder ISF QEP Global Emerging Markets, Schroder ISF Emerging Markets Multi Asset, Schroder ISF Sustainable Multi Asset Income, Schroder ISF European Alpha Absolute Return, Schroder ISF Asian Smaller Companies, Schroder ISF Social Impact Credit, Schroder ISF Global Sustainable Convertible Bond, Schroder ISF Asian Equity Impact, Schroder ISF Multi Asset Total Return, Schroder ISF Sustainable Global Sovereign Bond, Schroder ISF Sustainable US Dollar Corporate Bond, and Schroder ISF Sustainable US Dollar Short Duration Bond. The application of the non-going concern basis of accounting has not led to material adjustments to the Sub-Funds' published net asset values. Any remaining cash is monitored by management and will be re-distributed to the investors once all outstanding costs are paid.

For Sub-Funds that have been liquidated, any residual cash is monitored by management and will be re-distributed to the investors once all outstanding costs are paid. At the reporting date the cash amounts held at custody for the following liquidated Sub-Funds were as follows:

Sub-Funds	Cash held at custody as at reporting date
Schroder ISF Global Social Growth	1,102 USD
Schroder ISF QEP Global ESG ex Fossil Fuels	1 USD
Schroder ISF Cross Asset Momentum	169,838 USD
Schroder ISF Global Managed Growth	7,289 USD
Schroder ISF Global Credit Duration Hedged	751 EUR
Schroder ISF Global Multi-Factor Equity	3 USD
Schroder ISF QEP Global Value Plus	243,262 USD

Net Asset Value

Calculation of Net Asset Value per share

The Net Asset Value ('NAV') per Share of each Share Class is calculated on each Dealing Day in the currency of the relevant Share Class. It will be calculated by dividing the Net Asset Value attributable to each Share Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Share Class then in issue. The resulting sum is rounded to the nearest four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

The financial statements are prepared on the basis of the last NAV calculated during the period, which was 30 June 2025 for all the Sub-Funds.

Valuation of the Assets of the Company

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

The values of securities, derivative instruments and assets are determined on the last day on which prices were calculated. The basis for this value uses the available price at the valuation point for each fund on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets. Please refer to the prospectus for further information.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the last available price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments. Please refer to the prospectus for further information.

Notes to the Financial Statements as at 30 June 2025 (continued)

Net Asset Value (continued)

Schroder ISF EURO Liquidity and Schroder ISF US Dollar Liquidity are Standard Variable Money Market Sub-Funds which fall under Money Market Fund Regulation or MMFR the regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on Money Market Funds, as it may be amended or supplemented from time to time. The assets of Sub-Funds qualifying as Money Market Funds shall be valued on at least a daily basis. The Net Asset Value per Share shall be calculated as the difference between the sum of all assets of the Sub-Fund and the sum of all liabilities of the Sub-Fund valued in accordance with Mark-to-Market or Mark-to-Model, or both, divided by the number of outstanding Shares of the Sub-Fund. Units or shares of any other standard or short-term Money Market Fund ("targeted MMF") provided that all of the following conditions are fulfilled: (I) no more than 10 % of the assets of the targeted MMF are able, according to its fund rules or instruments of incorporation, to be invested in aggregate in units or shares of targeted MMFs.

Units or shares in open-ended undertakings for collective investment are valued on the basis of the latest available reported Net Asset Value.

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures.

Any assets or liabilities in currencies other than the base currency of the Sub-Funds are converted using the relevant spot rate quoted by a bank or other responsible financial institution.

The Directors are authorised to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given Share Class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

As of 30 June 2025, fair valuation was applied to the following securities:

Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and in normal market conditions is not expected to exceed 2% of the unadjusted Net Asset Value per Share of the relevant Fund on any Dealing Day.

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009 and applies to all of the Sub-Funds.

On 30 June 2025, the last working day of the period under review, the official Net Asset Values per share of Sub-Funds following the application of the swing pricing adjustments are shown in the table below. All other financial information stated in this report is shown before any adjustments for swing pricing.

Fair Value Pricing

In accordance with the provisions of the current prospectus, fair value pricing may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly, if a Sub-Fund is primarily invested in markets that are closed for business at the time the Sub-Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Sub-Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Sub-Fund's investments at the point of valuation. The level of adjustment is based upon a systematic process involving a multi-factor regression approach that incorporates global that incorporates global, regional and security specific factors up until the point of valuation.

The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds wherever they deem it appropriate.

On 30 June 2025, the last working day of the period under review, the following Sub-Funds were adjusted.

Sub-Fund	Currency	Total Adjustment

Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-Funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract. Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging, in line with the investment objectives of the Sub-Fund.

Realised Gains and Losses on Sales of Investments in Securities

Realised gains and losses on sales of investments in securities are determined on the average cost basis and include transaction costs.

Income

Dividends are credited to income on their ex-dividend date. Interest income is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest is credited to the Sub-Funds upon receipt.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Notes to the Financial Statements as at 30 June 2025 (continued)

Forward Currency Exchange Contracts

Outstanding forward currency exchange contracts are valued at the last available price at NAV calculation day by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on forward currency exchange contracts'.

Futures Contracts

Futures contracts were valued at the last available price at NAV calculation day. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on financial futures contracts'.

Options Contracts

Options contracts were valued at the last available price at NAV calculation day. The net market value is shown in the Combined Statement of Net Assets under 'Options purchased and swaptions contracts at market value' for assets and under 'Options written and swaptions contracts at market value' for liabilities.

Inflation Rate Swap Contracts

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued at the last available price at NAV calculation day at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing date. The result of these revaluations together with any interest receivable/payable in relation to inflation swaps on 30 June 2025 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps. Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price at NAV calculation day at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 30 June 2025 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The market values are recorded under 'Swap contracts at fair value' in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. When a contract is closed, the realised gains or losses are recorded under 'Net change in realised appreciation/(depreciation) on swap contracts' in the Combined Statement of Operations and Changes in Net Assets.

Total Return Swap Contracts

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with financial institutions specialised in this type of transaction. In addition, the use of total return swaps must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total commitments arising from the use of total return swaps together with the total commitments arising from the use of other derivative instruments may not, at any time, exceed the net assets of the relevant Sub-Fund.

The total return swaps were valued at the last available price at NAV calculation day. The unrealised gain or loss on total return swaps at the period end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Fees and Expenses

Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 30 June 2025, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the table on pages 964 - 986.

Performance Fees

In accordance with the provisions of the current prospectus, performance fee terms was applied to 1 Sub-Fund. Accordingly, the Investment Managers of the relevant Sub-Fund are entitled to receive from the Sub-Fund a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub-Fund over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Sub-Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 20% of the outperformance and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Fund in relation to which performance fees was calculated during the period under review as well as details of the relevant Investment Manager and

Notes to the Financial Statements as at 30 June 2025 (continued)

Performance Fees (continued)

benchmark are set out in the following table.

Sub-Funds	Investment Manager	Benchmark
Schroder ISF European Alpha Absolute Return	Schroder Investment Management Limited	Euro Short Term Rate

No performance fees were charged for the financial period under review.

Distribution Fees

The distribution fee represents the cost charged to the Sub-Fund for the distribution of the share classes and it is expressed as a percentage of the net assets. The actual rates payable which vary from Sub-Fund to Sub-Fund and from share class to share class can be found in the current prospectus.

Depositary and Administration Fees

The Depositary and Sub-Fund Administrator are entitled to fees for related services rendered in accordance with common practice in Luxembourg, payable monthly, out of the net assets of the Sub-Fund.

Operating Expenses

The Sub-Funds pay other Operating expenses incurred in the operation of the Company which are composed of statutory fees and are mainly audit, legal and publication fees, please refer to the 'Operating Expenses' shown in the Combined Statement of Operations and Change in Net Assets.

Directors' Fees

For the period from 1 January 2025 to 30 June 2025, Richard Mountford received in remuneration an amount of EUR 45,000, Hugh Mullan received in remuneration an amount of EUR 32,500. Bernard Herman and Eric Bertrand each received in remuneration an amount of EUR 40,000. Yves Francis received in remuneration an amount of EUR 42,500.

The remaining Directors have waived their remuneration.

Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' to a rate of 0.05% per annum based on the net asset value of each Sub-Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Sub-Fund which comprises only institutional Investors (within the meaning of article 174 of the Law of 17 December 2010), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

Capital gains realised on the disposal of Indian listed stocks within 12 months after purchase (short term gains) are subject to a 20% Indian capital gains tax. The disposal of Indian listed stocks after 12 months after purchase (long-term gains) are subject to a 12.5% Indian capital gains tax. The capital gains taxes are taken into account on an arisen basis at the applicable rates for a short term gain or a long term gain without taking a provision into account. The capital gains taxes are accrued in the net asset value and included in the statement of net assets under the heading 'Other liabilities' and included in the statement of operations and changes in net assets under 'Net realised gain/(loss) on: currency exchange' for the capital gain taxes linked to realised gains and under 'Net Change in unrealised appreciation/ depreciation on: currency exchange' for the unrealised appreciation of investments during the period.

Changes in the Sub-Funds

A list specifying the total purchases and sales for each Sub-Fund, which took place during the period under review, may be obtained free of charge upon request at the Company's registered office.

Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transaction.

Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Custodian transaction costs are not included in this table, please refer to the Depository Fees shown in the Combined Statement of Operations and Change in Net Assets which includes custody transaction costs that represent fixed rate charges per market levied by the custodian for the servicing of portfolio transactions. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. Transaction costs for baskets of contracts for difference are included in the market value. The transactions costs for the period under review are as follows:

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

Appendix I – Securities Financing Transactions

The Sub-Funds engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions (SFTs) include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) and/or Total Return Swaps. In accordance with Article 13 of the Regulation, the Sub-Funds involvement in and exposures related to SFTs and Total Return Swaps for the reporting date are detailed below.

Global Data

Amount of assets engaged in each type of SFTs and Total Return Swaps

The following table represents the fair value of assets engaged in each type of SFTs (including Total Return Swaps) in the Sub-Fund currency.

	Amount of assets	% of Net Assets
Schroder ISF Commodity	**USD**	
Total Return Swaps	3,704,013	4.51%
Schroder ISF Global Multi-Asset Balanced	**EUR**	
Total Return Swaps	247,026	0.04%
Schroder ISF European Alpha Absolute Return	**EUR**	
Total Return Swaps	712,427	2.21%
Schroder ISF Alternative Securitised Income	**USD**	
Total Return Swaps	315,819	0.03%

Concentration Data

Ten largest collateral issuers

As at 30 June 2025, there are no collateral securities and commodities received in respect of total return swaps.

Top ten counterparties

The following table provides details of the top ten counterparties (based on gross volume of outstanding transactions), in respect of SFTs and Total Return Swaps, as at the reporting date.

Counterparty	Outstanding Transactions
Schroder ISF Commodity	**USD**
Total Return Swaps	
Macquarie Bank Limited London	1,390,562
BNP Paribas SA	1,296,015
J.P. Morgan Securities plc	1,001,078
The Goldman Sachs Group, Inc.	16,358
Schroder ISF Global Multi-Asset Balanced	**EUR**
Total Return Swaps	
J.P. Morgan Securities plc	247,026

Country in which counterparties are established

The following table provides details of the country of incorporation of counterparties across all SFTs and Total Return Swaps, as at the reporting date.

Counterparty	Country of Incorporation
BNP Paribas SA	France
J.P. Morgan Securities plc	United Kingdom
Macquarie Bank Limited London	United Kingdom
The Goldman Sachs Group, Inc.	United States of America

Aggregate transaction data

Settlement and Clearing

The Sub-Fund utilises bi-lateral settlement and clearing with its counterparties for total return swaps.

Data on re use of collateral

Shares of collateral received that is reused and reinvestment return

The Sub-Fund does not reuse or reinvest collaterals received, if any, on total return swaps.

Collateral received

The following table provides an analysis of the amounts held at each custodian as collateral received by the Sub-Funds in respect of SFTs and OTC derivative transactions (including Total Return Swaps), as at the reporting date.

Custodian	Value
Schroder ISF Global Multi-Asset Balanced	**EUR**
OTC derivative transactions	
J.P. Morgan Securities PLC	80,000
Total	**80,000**
Schroder ISF Alternative Securitised Income	**USD**
OTC derivative transactions	
J.P. Morgan Securities PLC	90,000
Total	**90,000**

Appendix I – Securities Financing Transactions (continued)

Collateral granted

The following table provides an analysis of the amounts held at each custodian as collateral granted by the Sub-Fund in respect of SFTs and OTC derivative transactions (including Total Return Swaps), as at the reporting date.

Account type	Proportion %	Value
Schroder ISF Commodity		**USD**
OTC derivative transactions		
Segregated	100.00%	2,370,000
Total		**2,370,000**

Return and cost

Total Return Swaps

Return on Total Return Swaps disclosed below are included as part of 'Interest on swaps', 'Net realised gains/(losses) on Swaps contracts' and 'Net change in unrealised appreciation/(depreciation) on Swaps contracts' in the Combined Statement of Operations and Changes in Net Assets". All returns on Total Return Swaps are attributable to these Sub-Funds and are not subject to return sharing agreements.

	Total Return Swaps - returns for the Sub-Funds
Sub-Fund	**Absolute - in Sub-Fund currency**
Schroder ISF Commodity	3,999,059
Schroder ISF Cross Asset Momentum*	2,135,482
Schroder ISF Global Diversified Growth	66,570
Schroder ISF Global Multi-Asset Balanced	1,000,390
Schroder ISF Multi-Asset Total Return	40,560
Schroder ISF European Alpha Absolute Return	1,206,268
Schroder ISF Alternative Securitised Income	120,419

Cost

The costs attributed to total return swaps held during the period were included in the spread.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.
